MISS SAWYER'S SALVE.

HERE you have a salve combining soothing and healing properties, with no dangerous ingredient. A remedy at hand for the many pains and aches, wounds and bruises to which flesh is heir. In some cases only applied then many other remedies, never producing a bad effect, but always relieving pain, however severe.

It is prepared by *Miss Sawyer*, who has used it in her own extensive treatment of the sick, for nearly twenty years, with great success.

The principal diseases for which this salve is recommended are, *Childbirth, Rheumatism, Piles, Scrofula, Old Ulcers, Salt Rheum, Sore Eyes, Barber's Itch, Deafness, Boils, Ring-worms, Corns, Bites of Insects, Cancers, Toothache, Earache, Sore Nipples, Baldness, Swollen Breasts, Itch, Scald Head, Teething, Chapped Hands, Scalds, Cuts, Bruises, Croup, Cracked Lips, and Sores on Children.*

It never fails to cure Rheumatism if properly applied. Rub it on well with the hand, three times a day. In several cases it has cured painful limbs. For *Piles* it has been discovered to be a sure remedy. Persons that have been afflicted for years have been relieved by a few applications. For *Scrofula* it works wonders, allaying the inflammation and quieting the patient. For *Cancers and Tumors* it produces a cure immediately. Let those with *Salt Rheum* obtain this Salve, and apply it freely, and they will find it invaluable. It is good in case of *Scrofula* and *Tumors*. *Cancers* have been cured with it. The best Salve ever invented for *Swollen Breast* and *Sore Nipples*. No way injurious, but sure to afford relief. *Sore or Weak Eyes*—Rub it on the lids gently, once or twice a day. Cures literally by putting in the ears on a piece of cotton. For *Felons* this is superior to anything known. For *Piles* it acts like a charm. For *Burns* and *Scalds*, apply the Salve at once and it gives immediate relief. For *Old Sores*, apply once a day.

FOR HORSES AND CATTLE.—For Sores or Bruises on Horses or Cattle this Salve is invaluable, and has astonishing effect in curing scratches on horses. This Salve has worked its own way into notoriety, and is a safe and sure remedy for all the above ailments.

We, the undersigned, have been acquainted with Miss Sawyer for many years, and believe her to be a Christian lady and a skilful nurse and having used her salve in our families, it is a great pleasure in saying it is the best general medicine we have ever used:

LETTER FROM ENGLAND.

ENGLISH SYMPATHY FOR CHICAGO.

To the Editor of the Whig & Courier:

For a week past all England has been stirred with sympathy for the sufferers by the great fire in Chicago. The brief telegrams have told a fearful story, and meetings have been called in all the large towns. Resolutions of sympathy have been voted and large subscriptions have been made. The first meeting was held in Birmingham, and the amount raised has already reached £3,000, with daily additions which will make £4000. The Lord Mayor of London has received £45,000, Liverpool has added £15,000, for £18,000 more, and Manchester, Sheffield, Edinburgh, Glasgow, and a great number of other places have joined in the generous response. To an American this spontaneous expression is most gratifying, and bespeaks the kindly feeling for the United States. It has been repeated everywhere that the American people sent provisions to Ireland in the time of famine, and aided the Lancashire cotton spinners while suffering from a desolating war at home. Not only have the rich give sums ranging from £1,000 to small amounts, but the poor have cheerfully contributed their offerings of sympathy. It is interesting to read the record of contributions, and the notes which accompany them. One gives a shilling, with the signature, "poor but not burnt out," and others send the "widow's mite." Theatres, concerts and operas contribute the proceeds of an evening's entertainment, and in the mills and workshops relief funds are inaugurated. The total amount which will be donated will stand on record as one of the noblest offerings for the suffering, while the kindly feeling and earnest expressions give their peculiar emphasis to the benefaction. It would be easy work to settle all national difficulties now, and the givers and receivers cannot fail to be in more amicable relations with each other after such a sympathetic demonstration.

EXEMPTION FROM FIRES IN ENGLAND.

One familiar with the fearful conflagrations which often occur in America, is impressed with the exemption from fires in England.—During a residence of one or two years in a town of nearly four hundred thousand inhabitants, I have never witnessed the burning of a building and have seen but very few notices of such misfortunes in the papers. They are almost always confined to a single building when they do occur, so that the term "burned out" is substituted for the American expression "burned up." Here the walls are usually but slightly injured and repairs are easily made. The reason for this difference in reference to these calamities is found in the style of building. English houses are almost exclusively built of stone or brick both in the city and in the country. The plaster is placed upon the walls without laths, and the partitions are of brick. A large proportion of the floors are of tile, and the roofs are generally covered with a similar material instead of the felt and tar so often used in America. Shingles are wholly unknown and the people do not know the meaning of the word.—Many of the churches and public buildings are entirely of stone, with the exception of the limited amount of wood required for furnishing, and there is but little combustible material in the structures of the country.—Passing through some of the narrow, crooked streets of the old towns and noticing the ancient and often dilapidated homes of the poor, one cannot but think how greatly the appearance of things would be improved if a sweeping fire could clear away the buildings which have stood for centuries. But the boon of exemption is priceless.

MAINE IN MINNESOTA.

The West is largely indebted to New England for those men who have done the most to build up that rapidly advancing section of the Union. A letter from Minnesota in the Press, presents this fact in a striking light by giving us the names of the leading men in that State who are natives of Maine. The Governor—Horace Austin—is from one of our interior counties, and has a brother engaged in business in one of the towns of Franklin. The democratic candidate for Governor, is Winthrop Young, esq., of St. Anthony, formerly of Calais.

The two Representatives in Congress are both from Maine. Hon. Mark H. Dunnell, who represents the first or Southern District, resided in Hebron and Portland before coming to Minnesota, and was for a while in command of the 6th Maine Regiment, and subsequently was consul to Vera Cruz. Before his election to Congress, Mr. Dunnell had served in the State Legislature, and for several years was Superintendent of Common Schools, an office analogous to one he held in Maine several years before his removal to the Northwest. His present residence is in Owatonna, about seventy miles from St. Paul on the line of the Milwaukee railroad.

The Representative from the Second District, which embraces the northern part of the State, and more than three-fourths of the territory, is Hon. John T. Averill, of St. Paul, formerly of Winthrop. Mr. Averill is a paper manufacturer and successful merchant.

The present Superintendent of Common Schools—the successor to Mr. Dunnell—is Mr. Wilson of Red Wing, a city on the Mississippi just above Lake Pepin. He formerly resided in Skowhegan, graduated at one of the Maine colleges, and was accustomed to spend his long vacations in teaching, usually in South Thomaston and vicinity.

Jared Benson, collector of Internal Revenue for more than half the State, is also from Maine. Of the business men of the State hailing from Maine, are Hersey, Staples, Stickney and Bronson, of Stillwater. The Folsoms of Taylor's Falls, also from Maine, take front rank among the successful men in the St. Croix valley.

Sam Mayall, of St. Paul, is one time representative of a Maine district in Congress, then a Democrat and now a Free-Trade, Prohibition Republican, is among the foremost men.

In St. Anthony, on the right bank of the Mississippi at the Falls of the same name, the Maine element is very large. Prominent among this class is Mr. Young, already named, Farnham and Lovejoy, Capt. Hollins, Todd, Chase and many others, all engaged in the lumbering or milling business.

In Minneapolis—directly opposite to St. Anthony—Maine men take high rank among the business population of the city. Foremost among them is Dorilus Morison, esq., who with his sons, does the heaviest lumbering business at the Falls. Mr. Morison has twice been elected Mayor of the city. W. D. Washburn, esq.,—brother to the Collector of Portland—occupies a front rank among successful business men. Mr. Stickney, his partner, is a son of D. Stickney, esq., of the Presque Isle Sunrise. R. S. Stevens with his brother-in-law, Mr. Morse, are heavy wholesale grocers. Mr. Stevens, formerly represented Oxford county in the Senate of Maine. Fletcher, a sort of dry goods king is from the Penobscot. So are the Brackett's, one of whom has been styled a "steam engine in boots." Mr. Fletcher's partner, Loring, is from Yarmouth. Besides these there are Gibson & Tylor, whose woolen blankets have taken first premium all through the west, the Dars, the Joneses, the Fosters, the Wakefields, the Veazies, the Dillinghams, the Conants, the Longfellows, the Elliots and a host of others.

THE PEOPLE'S FIGHT

Important elections will occur on Tuesday, in Illinois, Wisconsin, Minnesota, Virginia Maryland, Mississippi, New Jersey, New York and Massachusetts The result in each will be awaited with great interest by the whole country, as the last full political expression of those States prior to the national campaign of 1872 In each there are issues of special interest, and although the general result in a majority of them is practically known beforehand the relative deviations from former votes will be invested with a political significance and the earliest returns from the various sections will be eagerly scanned by the public at large But while each one of these State elections will be regarded with a varying interest according to the circumstances affecting and vidual concern, the election in New York will be watched with absorbing anxiety by the whole American public, as the people's fight for honest government against organized robbery and corruption

The people who have so long been overawed and plundered have at last been brought face to face with the scoundrelism that has usurped their liberties and the Tammany Ring stands at bay entrenched behind the enormous hoards of treasure stolen from the public

What the wanton, the outrage of a community aroused to a sense of their wrongs and the dangers which threaten them The world never before witnessed such a spectacle as that presented in the pending contest in the Empire State a great Republic. The revelations of colossal corruptions have been astounding and wide still cling to their positions and in spite of the damning exposures, wield a power over the unscrupulous rabble to which they have pandered, that renders the struggle desperate if not doubtful

Of the four conspirators, whose names have become synonymous with shameless fraud, one Hall has the highest official position in the State, is another is still the animating guardian of the treasury whose keys the people have wrested from his hands, another remains at large only by virtue of 600 bail bonds collected by the direct proceeds of the most important larceny, stealthily plotting in the interests of the cabal, and the Chief of the Police of the king the unmuzzled cohort that large only by virtue of 600 bail bonds collected by the direct proceeds of the most important branch of the larceny but unblushingly presents himself as the intimate associate in the councils of the State and strangest of all is the possibility that the probability that this infamous character will succeed in his designs upon

[illegible] who base his calculations on the views we can gather from the testimony of both Democratic papers which has at one time or other fully denounced Tweed for the same crimes which now mark the administration of Mayor Hall and Sheriff Brennan as recent writers, a journal [illegible] does not of the most important character, but which thoroughly [illegible] interested in [illegible] Of the Tenth or Tweed's Senate District which comprises one of the principal business sections of the city and [illegible] from sunset by all the reputable [illegible] who fill the streets an officer by the Democratic State champion says

[illegible] public pe son shown to the west [illegible] reputation as a newspaper consists to five and [illegible] in the Tenth Senate District it is not the residence of people who have any regard for the decencies of life or the essential and good opinion of respectable society the very dregs and scum of our population, [illegible] that [illegible] of this country and all others [illegible] with Senate District, A majority of [illegible] who lodge in it and are entitled to vote can not read or write and of these [illegible] great numbers are either abandoned and self degrading profligates, or live by pandering to the evil appetites of others — Public Libraries and free statue of this character will be found in our city But there is another district where this untutored felon would have the right to offer himself as a candidate after the recent disgraceful exposures

[illegible] the result proves as true, backed up [illegible] organized repeating and ballot stuffing which the Ring have so long practiced [illegible] of Democracy that the people of New York are to contend with at the polls [illegible] conspirators still control the whole political machinery of the city [illegible] accepting the [illegible] and Tammany judges have given them a partisan access to that, while the millions of their plunder furnish ample funds for their purpose The police are controlled by the inner circle of the Ring, the judiciary is [illegible] secret subserviency, mercenary [illegible] are plied with numerous bribes, and with all the appliances of a system which has reached the perfection of potential villainy in full working order, the brand ed robbers of Tammany hoist the black flag, and boast of their power to strangle popular [illegible] in the centre of the Republic.

[illegible] this fair contest, the people of the United States have seen the Republican party [illegible] a [illegible] of Democracy not bound [illegible] the chariot wheels of the Tammany oligarchy The villainy which is now imposing [illegible] raved against the honest citizens of New York, had a Democratic birth, secured a national Democratic recognition became the accepted ally of the party and by a co-operation [illegible] of the pecuniary and political spoils, rend red Democracy its debtor for the fraudulent control of the Empire State, for the liberal use of its funds, creatures and tactics, wh never there was a chance to steal a victory, and finally for its hope of debauching the ballot with Tammany's millions to an extent that would secure a Democratic triumph in the Presidential campaign Since the exposures have become so glaring as to silence, if not apology the shrewd managers of the party have attempted to cut loose from the carcase of corruption which has so long been the party idol and some of the bolder have struck out boldly on behalf of the people That the party as such is still afraid of Tammany was shown at the Rochester Convention, which refused to admit the opponents of the Ring and even the yeoman service which Tilden is now rendering cannot efface the recollection of other occasions when he was favorably associated with Tweed in managing invasions which resulted in falsifying the vote of New York

In it even such assistance is welcome in the desperate strait to which the people of New York have been brought, and no one will question that many honest Democrats who have never before realized the actual villany of their Tammany leaders, are now heartily joining the crusade against corruption To all such full credit will be awarded, but the great central fact stands out, that the war on Tammany is an assault upon the citadel of Democracy and that the triumph of the thieves over the people of New York city and State on Tuesday, if such a calamity should happen will be achieved by the same men and the same methods that have hitherto perpetrated these high handed outrages upon the Republican sentiment of the State which have been applauded by all our opponents as Democratic victories.

A delegation of Texas Republicans now in Washington say that had the campaign been conducted on the platform of the National Administration, and not on local issues, the State would have gone Republican by 10,000 majority. With proper organization and removal of several federal office-holders, they claim that the State can be carried in 1872 by 20,000 majority.

Gov Hoffman is in New York city and will stay through the election.

THE WRIGHT INDIAN FRAUDS.

The Wright Indian frauds, which have come again to the surface within a day or two, were partially investigated two years ago by Secretary Browning, but it is alleged that he decided that he had no authority in the premises and concluded not to push the matter Judge Wright earned his judicial honors in Indiana many years since, held an Indian agency under President Buchanan, and is now and always has been a consistent Democrat. He owns a large amount of real estate in the district and has lately been building extensively in his son's name. He has been for a long time intimately associated with the Indian tribes of the Southwest, one of his sons owning a trading-post near Fort Gibson and another having married a full blooded Cherokee squaw Information is said to be in possession of the Government that a large number of the applications for pensions and bounty were prepared in the name of deceased soldiers, and the money obtained from the Paymaster General upon forged receipts in the name of these same dead men As the status of Wright's accounts with the Indian office were not deemed satisfactory, a quiet investigation was recently ordered by that office, which resulted in the discovery that disbursements were not properly vouched, and he was called upon to produce *bona fide* vouchers covering about $385,000, the total amount of his disbursements being about $500,000 The vouchers, which it was suspected were spurious, it is now stated have been surreptitiously withdrawn from the Indian Office within a few weeks past, it is believed by some one in Wright's employ A simple list or abstract of these vouchers was left in the place of the stolen documents It becoming apparent from these discoveries that a gigantic swindle had been perpetrated, the evidence in the case was sent to the Department of Justice, that suit might be brought to recover the amount for which Wright had failed to supply vouchers Nothing was done by the Department mentioned, it is said, because an investigation demonstrated the fact that Wright's bondsmen were financially responsible for the amount in question Another Commission was sent to the Indian Territory When this Committee reports, it is thought that a prosecution will at once be commenced against Wright.

TILDEN ADDRESS MAYOR HALL

In his speech at the reform meeting in New York on Thursday night, Samuel J Tilden summed up his arraignment of A. Oakey Hall as follows —

Now, gentlemen, these revelations throw a light upon what? Upon three false pretenses in regard to these transactions, made by Mayor Hall under his own signature before the public, and two attempts to mislead the public judgment as to the real authors of the crime I do not wish to do injustice to Mayor Hall He is a man experienced in criminal law [Laughter] He is a man who is educated both in the drama and in the living scenes that are recorded in the actual crimes of mankind in his country and in Eng and, for I understand this has composed the greatest part of his business Now I say that there is nothing in the melo-dramatic history of crime more remarkable than these two successive attempts of his to lay the crime to an innocent man if the object was not to screen men whom he knew to be guilty And while I would not do any wrong or the slightest injustice to Mayor Hall, I say to him, as I do to you that the history of these transactions puts him on his explanation, and draws upon him a strong suspicion that he knows where of he was acting Did he mistake when he got the city charter Did he mistake when he acted in the Board of Audit? Did he mistake when he accused Connolly of burning the vouchers? Has he been subject to a misfortune of mistakes at all times? Why does he stand to-day deservering to preserve that power? I will only say that if he was mistaken on these occasions he is a very unfortunate man, and has not acquired by the six years of practice in the District-Attorney's office, that amount of sagacity in the pursuit of crime which we would naturally ascribe to him

PREPARING FOR THE NEW YORK ELECTION A New York special of Friday refers to the preparations for Tuesday's work, as follows:—

The excitement with regard to the election increases daily, and probably New York will see for the first time in years a full vote of respectable citizens. To nullify this Tammany has made full preparations for repeating and box-stuffing, and the Tammany Judges are under orders to shield all repeaters brought before them, as they are always required to do election day

In the 7th Senatorial district, where O'Brien is against Bradley, the Tammany man, the people are very indignant against the latter. A banner hanging at the corner of Third avenue and 26th street was yesterday pelted with stones and mud, and the police had much difficulty in saving it from destruction Four policemen now guard the flag day and night. Bradley is Police Commissioner, and use the force as he sees fit.

Sec 20 of the election laws of 1870 provides that each candidate for any office may designate one person for each election district in which he is a candidate to be present at the canvass of the ballots containing the names of the persons designated for that office

The inspectors are required to permit such person to be present at the canvass of the ballot, and so near to them that he can see that the canvass is correctly made. Superintendent Kelso's order to the police says that all persons except the inspectors and poll clerks are prohibited from assisting in the estimate of votes, and that any persons offending against this provision shall be deemed guilty of and punished as for a misdemeanor Briefly, if the canvassers attempt a fraud, and any spectator objects, the police are instantly to put him out

Sheriff O'Brien said to day that he had made a tour through the 20th Ward, and learned that Bradley's relatives and friends had agreed to give each Inspector of Election $250 to count him out. He added that Owen Geoghegan, the well known rough, and Reddy the blacksmith have been employed to drive citizens from the polls and head the gangs of repeaters

CARRYING THE MAILS. The Post Office Department is still unable to make a permanent contracts for carrying the mails over some of the postal routes in Southern States Although twice advertised no responsible bids have been made. Of those opened last week nearly all proved to be straw bids. Mr Cresswell will ask Congress in his next annual report to legislate in the matter, and will recommend that a law be passed providing that offering "straw bids" shall be considered a misdemeanor under the law and punished as such

SHERIDAN AT CHICAGO General Sheridan's report of his action after the fire at Chicago, detailing the number and disposition of the troops which he employed for preserving order and property in that city, and briefly mentioning the character and value of the service performed, has been received and filed at the War Department General Sherman's endorsement upon the report may interest those Democratic journals which profess a great admiration for Tecumseh, while they denounce Sheridan on all occasions and especially for his prompt action at Chicago It is as follows:—

The extraordinary circumstances attending the great fire in Chicago made it eminently proper that General Sheridan should exercise the influence, authority and power he did on the universal appeal of a ruined or distressed people, backed by the civil agents who were powerless for good. The very moment that the civil authorities felt able to resume their functions, General Sheridan ceased to exercise authority, and the United States troops returned to their respective stations General Sheridan's course is fully approved.

W. T. SHERMAN, General,

The Washington Patriot says —"There have been some informal conversations here between prominent Conservative Republicans and Democrats on the subject of nominating Judge Trumbull for the Presidency, and it is stated that the subject will be further and seriously discussed at a day not far distant"

MAINE NEWS.

OBITUARY.

PORTLAND, Me., Nov. 5.

C. F. Pador, a prominent physician of this city, died yesterday.

FATAL RAILROAD ACCIDENT.

A Frenchman named Joseph Swemo, belonging in Syrock, N. E., employed on the Portland & Ogdensburg Railroad, was instantly killed at Cumberland Mills, Saturday night, by being struck by an engine while riding on a hand-car.

DOMESTIC NEWS.

FROM NEW YORK.

THE LING AND THE GRAND JURY.

NEW YORK, Nov. 4. Among the 96 names from which a grand jury of 23 are to be selected Monday, are five members of the "Ring." The majority of them will probably be found among the sixteen to be selected.

TAMMANY'S REPUTATION STRONGHOLDS.

Yesterday's registration brings up the total to 129,052. This is 1,611 less than last year. The decrease is mainly owing to the absence of voters from the repeating strongholds of Tammany. All but the 9th, 8th, 10th, and 14th wards will poll a heavy vote. One of the registration offices is in a gambling hell on Houston street.

WHAT THE STUDENTS THINK OF COOPER HALL.

The students of the New York University have torn down Myer Hall's picture from their walls.

MISUSE OF THE POLICE.

It is expected among the police on election day. It is rumored that the Police Commissioners will order everybody out of the polling booths Tuesday, except the ring inspectors, and not allow reformers to watch the voting. This may lead to serious trouble.

AN AUDACIOUS TAMMANY SCHEME.

A wide and dangerous scheme has been discovered to carry the election for Tammany. After the polls are closed and the ballot boxes sealed, other boxes, packed with ballots, will be substituted for them, and thus when the votes are counted a different result will be shown from the reality. Sheriff O'Brien and friends have found this plan out through the confession of men engaged to do the work. Great excitement is caused by the revelation.

"A BIRD IN HAND."

Ingersoll was expected to arrive yesterday, and his friends have arranged with Sheriff Brennan satisfactory bail. Ingersoll is to be produced this morning, arraigned, bailed and released.

"TWO IN THE BUSH."

Garvey's brother has been paying a number of small debts of his absconding relative; but the sheriff does not believe that either Garvey or Woodward will ever return.

A TRAITOR'S PRICE.

A member of the Committee of Seventy states that Judge Leslie sold himself to Tammany during the Rochester Convention, his reward to be a heavy pecuniary consideration, besides the Supreme Judgeship.

TWEED'S TRANSGIVING.

Tweed made a speech at a ward meeting last night, saying that he was thankful that his traducers had placed him in a position to vindicate himself, and really that the action he should say but little, only asking to play.

NEW YORK, Nov. 5. The Times says this this year's registration probably includes the loss of the repeating element that 1870, and believes that the vote will come closely up to the registry, which is the largest ever known; and that the entire increase is due to voters who went for reform.

Charles O'Conor addressed the voters of the 19th ward last evening in exposition of the Ring frauds and in denunciation of Tweed. The latter addressed his supporters in the 13th ward, asking, he said, for justice and fair play, which were denied him by partizan foes, and claiming that a re-election will be an endorsement of his course.

The names of two ladies, Mrs. Prince, Rose McKinsley and Miss Annie Kemble Parker, were registered yesterday in the 19th ward.

Samuel A. Lewis has withdrawn from the Senatorial contest in the 5th district in favor of Benedict, who is now the sole opponent of North.

John H. Athon, Grand Master of Masons in this State, has declined a nomination for Judge of the Superior Court.

The present Tammany aldermen are assistant aldermen are to be voted for on Tuesday without formal re-nomination.

The Tammanyites of the 11th, 13th and 17th wards have repudiated Judge Ledwith.

The order for the arrest of Ingersoll will be returned to Court to-morrow by the Sheriff endorsed "Not served."

Alexander Spaulding, candidate for the Maine Court bench, is accused of indebtedness to the national government of half a million dollars on his accounts as Collector of Internal Revenue. He denies the accusation, declaring emphatically that he don't owe the government a dollar.

Bernard Reilly, a bar-room keeper and politician, was fatally beaten yesterday. No arrests.

Ample preparations are made by the military to aid the police on Tuesday in case of an outbreak.

John V. Gridley, Republican, has withdrawn from the Assembly nomination in favor of Col. Hawkins, Reform candidate.

CHICAGO.

ASTOUNDING REVELATIONS—A CHICAGO ALDERMAN AND CANDIDATE FOR MAYOR ROBBING THE RELIEF FUND.

CHICAGO, Nov. 4. Astounding revelations were made this morning of the operations of Alderman Holden in the use of the relief funds. As Holden is President of the City Council and a candidate for Mayor on the opposition ticket, additional pungency is given to the matter.

Immediately after the fire a relief society was formed, of which Holden was made treasurer. The composition of this society not being satisfactory to the committees from Cincinnati, Louisville, Indianapolis, St. Louis and other cities here, Mayor Mason dissolved it, and directed everything to be turned over to the old relief society, an institution under the control of citizens of integrity, and regularly incorporated.

This was satisfactory to the committees from other cities, but not to some of the aldermen, and they refused to recognize the new arrangement. It is now alleged that this money is being used by Holden to secure his election as Mayor, and very damaging evidence is produced to substantiate the charge.

Among other things Holden charged against the regular committee a livery stable bill amounting to $2,000. Its payment has been refused, and the committee gives notice that no carriages are needed in the work of relief. To what purpose the benevolence of the country might have been put may now be seen from this specimen.

The public may rest assured that the work of relief is now in good hands, and that this man Holden will be held to a strict accountability.

It now transpires that Holden, while acting as treasurer, secured at least $15,000 of the relief funds and considerable supplies, which he refused to give up when requisition was made by the proper authorities.

GOVERNOR PALMER AND GEN. SHERIDAN.

The publication here of a letter from Governor Palmer to Attorney-General Bushnell, requesting him to present the facts in regard to the killing of Gen. Thomas W. Gruvenor in the grand jury of Cook county, has created a sensation.

Very good authorities deny the right of the Governor to initiate such proceedings, unless the U. S. Attorney should first refuse to present the matter to the grand jury.

On the other hand, Gov. Palmer is recognized as a lawyer of ability, and not likely to make a mistake. It is charged by the friends of Gen. Sheridan that Gov. Palmer is unfriendly to him, and has taken this opportunity to do him injury at any rate Sheridan seems the least disturbed about the matter of any body. Gov. Palmer, in his letter, reviews the evidence before the coroner's jury, where it was shown that Mayor Mason requested Lieutenant-General Sheridan to preserve order in the city, and that the latter authorized Gen. P. H. Sherman to raise a regiment of militia; that several companies were so organized and acted under orders issued by Col. Sherman, and that the young man Treat was acting under such orders when he shot General Cruvenor, and is guiltless of any legal offense.

The Governor further discusses the question of authority to call out the troops, denying that such authority is vested in either a General of the army or a Mayor of the city. He says that in enforcing this lawless authority they have misused the title of a peaceable citizen, and believing that the State is capable of enforcing its own laws and protecting its own people, the Governor requests the Attorney-General to bring all the facts before the grand jury in order that all persons concerned in the unlawful killing of Thomas W. Grosvenor may be brought to speedy trial.

The Governor further discusses the question of authority to call out the troops, denying that such authority is vested in either a General of the army or a Mayor of the city. He says that in enforcing this lawless authority they have misused the title of a peaceable citizen, and believing that the State is capable of enforcing its own laws and protecting its own people, the Governor requests the Attorney-General to bring all the facts before the grand jury in order that all persons concerned in the unlawful killing of Thomas W. Grosvenor may be brought to speedy trial.

INDIAN MURDERS AND OUTRAGES.

On the 11th of October sixty Apache Indians attacked a ranche on San Simon river, Arizona, killed one man, wounded another, and burned the place. Capt. Smith of the 21st Infantry, writes that the Indians were pursued by the troops and were found to have come directly from the reservation at Canada Alameda. There are 500 Indians on the ration rolls at Camp Grant, and on the last ration day only fifty answered to their names, the rest being on the war path.

SALT LAKE

SALT LAKE CITY, Nov. 5. A well known Mormon writing from Beaver, Oct. 31st, says: Gen. Graham arrived this morning and after five hours, left for St. George on the Southern border of the Territory. He was escorted by 12 mounted men of the Nauvoo Legion. I am told he has made final adieu to Salt Lake City.

The Mormon press make no response to the published fact that polygamy was utterly disavowed by the Mormon authorities until 3 months after the passage of the territorial act against adultery. The act was approved March 6th, 1852. The revelation of polygamy is said to have been made Aug. 29, 1852. This overthrows completely the charge that the U. S. Court here was wrong in allowing the verdict under that act against polygamists on the ground that the act passed the Polygamist Legislature and hence intend not to punish polygamists.

The boiler was but about six months old, had just been patched, and was considered sound. The depot was badly wrecked. But few persons were at the station, or the loss of life would have been greater.

BANGOR PRODUCE MARKET.

The following report is obtained by particular observation on the market, and the quotations are the prices paid for produce from the country teams this day, or about the average for the week past:

HAY.—Loose hay has been brought to market during the past week only in moderate supply, and a good fair quality up to the best has sold at from $28 to $30 and $32 per ton. Some inferior loads sold from $20 to $24 and $26 per ton according to quality.

STRAW.—Loose straw is in demand at from $10 to $12 and $14 per ton.

OATS are not coming in only in small quantity, and sell at from 55 to 58 cents per bushel.

BARLEY finds but very few buyers, selling dull and price nominal.

BEANS.—Yellow-eyed beans are worth from $2.50 to $2.75, and occasionally a very extra lot sells at $2.85 per bushel. Extra hand picked pea beans are worth from $2.00 to $2.25 per bushel.

BUTTER.—Common to a good fair article of lump butter remains dull, and without much sale, on account of the large supply of Western packed that has been brought into our market. If we were to quote good lump butter, it would be at about 30 cents per pound but a very choice article is scarce, and would sell at a better price than mentioned.

EGGS are in good demand at from 28 to 30 cents per dozen.

POTATOES are coming in plenty and sold to-day on our market at, from 45 to 47, and some few very extra loads at 50 cents per bushel.

APPLES.—Green apples are plenty in the market, and cooking fruit sells at from 50 cents to $1.00 per bushel, and the best varieties of grafted fruit sell at from $4.00 to $5.50 per bushel.

CHICKENS are worth from 15 to 16 cents per pound.

TURKIES are worth from 15 to 18, and some few lots of very extra birds have sold at 20 cents per pound.

GEESE are selling at about $1.00 each, and Ducks at 75 cents per pair.

WOOL, &c.—Wool is worth from 58 to 60 cents per pound, and wool skins $1.50 to $1.75 each. Veal skins 20 cents per pound; and hides 7 to 7½ cents per pound.
